Why Leens

What's makes Leen's so good?

Leens foam is one of the leading manufacturers of foam painting rollers, foam filters etc. Established in the year 2000, Leens foam is conceptualized by someone who has an expertise in the Foam & Fabric painting industry since 1982.

Leens foam specializes in manufacturing foam products from imported foams from Germany & Belgium. Also Indian foam procured from reputed foam manufacturers. We have also recently stepped into manufacturing of fabric roller industry since three years & the materials being imported from Istanbul & China.

We do not believe in dealing with any local marketer or customer directly whereas materials are only supplied to reputed dealers of Paint Brush manufacturers so that they can sell the product under their brand name. This measure is taken ardently to ensure the network of supplies maintains to be sturdy with respect to reaching small shops and hardware stores for which our products generously reach every nook & corner through the paint dealers & distributor.

Quality and performances

As we ascertain ourselves to be one of the leading manufacturers of foam & fabric products, we are proud to cognize that our reputation in the Industry is supreme and distinct as per our customer's feedback. Our supplies of all imported raw materials from Germany, Belgium, Istanbul and China are updated timely which has indeed manifested a boost in our manufacturing quality which in turn helps us in keeping the customers satisfied to the optimum.

Usability

Paint Pickup – We purchase foams of excellent grades specifically suited to be used in the manufacturing of painting rollers observing the absorption paints pickup and release for application on the painting surfaces. **Easier to use** – Rollers are specifically manufactured with inserts of bearings which makes it easier for the painters to use and clean the roller after use. Cleaning of the product is as easy as a pie no tools which are required to clean it. It can be simply rinsed under the running water or can be washed by many of the paint solvents which will enable the roller to be reusable for painting purposes.

Types of Rollers

- Polyester foams are for both water and oil based paints. They are to be rinsed with water or kerosene and to be dried on its own till the use (please don not squeeze the foam roller after rinse). Foam products are to be stored in a dry place where it is not directly exposed to the sunlight.
- Polyether foams are to be used only with water based paints. They are to be washed only with water. Above rollers are used after painting for finishing & smooth surfaces of the wall .
- Fabric rollers are used directly for painting. There are three types of Fabric Rollers available – 1) **Fabric rollers for interior** walls (Micro fiber, unifiber & polyester fabric) 2) **Fabric rollers for exterior** walls or buildings (Acrylic & Poly Acrylic mix). 3) Pure wool rollers are used for Epoxy surface painting. Fabric rollers can be manufactured as per demand of our valued customers for variation of lengths & sizes & also specific quality be manufactured according to the quality of work requirement.

Our Vision

As Warren Bennis rightly said, 'Leadership is the capacity to translate vision into reality', we envision to become a leader in offering the most economical, innovative and technically advanced products and services to all our customers bringing a stellar customer satisfaction experience to all, be it at home or at work. We aim to create a culture for sustainable development in the organization providing customer friendly services with new and easy tools immediately available at their disposal.

Our Mission

Our mission is to stay at the cutting edge by bringing novel and unorthodox products to the market which will help us achieve a successful forefront in the markets. We chastise ourselves in pushing ourselves forward to give a firm commitment in providing customer satisfaction with high quality products for their penultimate contentment. We promise you that we will prove to be your credible business partner offering to favor you forever.
